CONNECTIONS Clue:

*“Extra” Names in the Progress Note list of Family Participants/Focus*

“We have a Family Services Stage with a stage composition of 3. But if you go to the progress notes tab to enter a new note there are 4 other people listed who can be chosen as family participants/focus. Where did they come from?”

Answer: Names on the progress note Focus/Family Participant grid are not limited to just those in the individual FSS stage. The names on the grid are pulled from *all open stages* under the case ID number. These folks are in another open stage in the same case.
