

Report Identification Number: AL-20-036

Prepared by: New York State Office of Children & Family Services

Issue Date: May 03, 2021

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 3 month(s)

Jurisdiction: Clinton
Gender: Male

Date of Death: 11/11/2020
Initial Date OCFS Notified: 11/11/2020

Presenting Information

An SCR report was received with concerns that on 11/11/20, the mother was co-sleeping with the three-month-old subject child, and at 4:00AM, she found the child unresponsive. The father immediately performed cardiopulmonary resuscitation until emergency services arrived. The child was transported to the hospital where he was pronounced dead. There was no explanation as to how the child died.

Executive Summary

This fatality report concerns the death of a three-month-old male subject child that occurred on 11/11/20. A report was made to the SCR on that same date with allegations of Inadequate Guardianship and DOA/Fatality against the child's mother and father. Clinton County Department of Social Services (CCDSS) received the report and investigated the child's death. An autopsy was completed; however, the cause and manner of death remained pending at the time of this writing.

At the time of the child's death, he resided with his mother, father, and two surviving siblings, ages six and eight years old. The investigation revealed that on 11/11/20, the mother had been co-sleeping with the subject child in an adult bed. The mother placed the child on his back, cradled inside the mother's left arm with his head on her shoulder. At approximately 3:00AM, the mother awoke to find the child in this same position, unresponsive. The mother carried the child out of the bedroom and sought help from the father, who was asleep on a couch with the siblings. Emergency services were called, and an ambulance responded to the home shortly thereafter. The child was transported to a local hospital where he was pronounced deceased at 4:48AM.

From the time the investigation began to the time of its closure, CCDSS completed interviews with family members and collateral sources. The safety of the surviving siblings was assessed on more than one occasion. The medical examiner noted no signs of trauma were found on the child during the autopsy, and there were no criminal charges brought against the mother regarding the fatality. CCDSS found no evidence that the parents' actions or inaction caused harm to the child, and unsubstantiated the allegations in the report.

LDSS Response

On 11/11/20, CCDSS received the fatality report concerning the death of SC. CCDSS initiated their investigation within 24 hours and coordinated their efforts with their multidisciplinary team. It was learned there were 2 SSs and CCDSS worked promptly to assess their safety.

On 11/11/20, CCDSS met with the parents at their residence. SM explained on the date of the incident, she went to bed with SC between midnight and 1:00AM. SM stated she and SC would co-sleep in bed together while SF would sleep on a couch in another room. SM explained when she and SC went to sleep that night, she was laying on her back and placed SC on his back with his head on her shoulder, between her chest and left arm. SM explained there was no blanket used, but there was a pillow. SM reported she next awoke around 3:00AM, and checked on SC, who was in the same position as when he fell asleep. SM stated she could not wake SC, so she ran out of the room with him and awoke SF. SF explained he told SM to call 911 and he began CPR per the 911 operator's instruction. SM explained the SSs were asleep on the couch and did not wake up until the ambulance arrived. SM stated she had her mother pick up the SSs and take them to her home while SM and SF went to the hospital. The home was observed, and no safety hazards were noted. The parents had a bassinet in the home; however, SM reported SC did not often sleep in it. The record did not reflect if the parents had been previously educated surrounding safe sleeping practices. SM disclosed she was prescribed medication for substance abuse but had not used any illicit substances for two years. SF denied any drug or alcohol concerns.

On 11/11/20 and 11/16/20, CCDSS met with the SSs and MGM at MGM's home. MGM denied any concerns regarding the parents' care of the SSs. CCDSS spoke with the SSs and they expressed no safety concerns. Neither CH had any information surrounding the incident, but did report SC would usually sleep in bed with SM. Both SSs were assessed as safe.

Throughout the investigation, CCDSS spoke with family members and collateral sources, including the ME, LE, the SSs pediatrician, SM's substance abuse treatment provider, first responders and hospital staff. There were no concerns noted by any of these sources about the parents' care of the CHN. LE found no criminality regarding SC's death. Services were

offered to the family but declined, as they were already involved in community-based services. CCDSS found no causal link between SM's actions and the fatality, and therefore unfounded and closed the investigation.
